....

Sir,

Received from C.P. Technical in 22-4-53

M 24/53

COMMUNITY PROJECTS - South Kanara - Education - Extension to the Board Elementary School building at Chitrap - Construction of additional block - Estimates submitted.

....

Constructing additional accommodation to the Board Elementary School at Chitrap is one of the works approved by the Project Advisory Committee to be executed in 1952-53. An eye-sketch of the plot and an adangal extract are enclosed. The site proposed for constructing the additional block is marked B in the eye-sketch in S.No. 35/4 of Chitrap village. The plot stands alienated to the District Board for the purpose of the school.

There are 118 + 88 school aged children in Chitrap village, out of which 84 + 77 children are already on the rolls. The existing building can accommodate only 114 children whereas the present strength of school is 161. Hence, the necessity for providing additional accommodation for about 80 children.

The Dt.Board which is maintaining the school is not in a position to provide additional accommodation. The villagers, — majority of whom are fishermen are all poor people who cannot afford to undertake the work. The school committee is prepared to undertake the work of putting up mud walls for the proposed additional block, at their own cost. The remaining work has to be done at the expense of the Community Project funds.

The proposed work is estimated to cost Rs. 3,500/- The villagers are prepared to contribute 25% of the cost. The balance of Rs. 2,625/- has to be met by the Community Projects. I, therefore, request that theestimate may be sanctioned for a sum of Rs. 2,625/-

Detailed estimates in duplicate are enclosed. The Dt.Board proposes to appoint a Basic Trained teacher if the school building is extended. A copy of the Dt.Board President's letter is enclosed. At present, coiring,/basket-making and spinning are taught in this school.

PROJECT EXECUTIVE OFFICER.

SUB: COMMUNITY PROJECTS - South Kanara area - Education - Estimate for extension to the Board Elementary School at Chitrap - Report - Submitted.

Ref: Government Memorandum No.6022 Public (C.P.Audit) 53-1 dated 8-5-1953.

*****

The beneficiaries are willing to carry out the work if a contribution of Rs. 1,500/- is paid from Community Project funds. The amount may be ordered to be paid at 50% of the work done subject to a maximum of Rs. 1,500/- The total cost of the work done by the beneficiaries will be estimated with reference to the work done and if it exceeds Rs. 3,000/- the lump-sum amount of Rs. 1,500/- will be paid to the beneficiaries. If the total cost of the work done is less than Rs. 3,000/- at the time of part-payment, 50% of the cost of the work done will be paid. This cannot be treated as other works where each item of work is estimated and proportionate cost is paid from the Community Project funds. It is a lump-sum grant which may be paid in two or more instalments if the estimated cost of the work done exceeded at that time double the amount of the instalment

Abstract- Community Projects- South Kanara Area. Education - Extension to the Board Elementary school at Bhitrap- Estimate- Sanctioned

Read. From the PEO. Mangalore ref CNo 87/52B dated 13-6-53

Order:-

Sanction is accorded to an expenditure not exceeding Rs 1500/- (Rupees One thousand five hundred only) towards extending the School building of the Board Elementary School at Bhitrap, out of an estimated cost of Rs 3500/-. The balance of Rs 2000/- required to complete the work should be met by Contribution from the beneficiaries. This sanction is Counted against the provision in item II F of the Project estimate approved by the C.P.A. in their letter No. C.P.A 33/5/52 dated 31-3-53

2. The expenditure should be debited to "63B Community Development Projects - II Community Projects - f Education & Works"

3. The PEO Mangalore should get the work executed according to the plan and estimate herewith returned approved and Submit a Copy of the Completion Report to Govt. in due Course. The P.E.O. is permitted to make part payments for the work done in accordance with the prescribed instructions

Report to accompany the estimate :- for the Extension to the Board Elementary School at Chitrap in Mangalore Taluk.

Amount of Estimate Rs 3500/-

The Chitrap elementary School in Chitrap Village of Mangalore Taluk is about 17 miles on the Mangalore-Mulki Road and about 1 mile towards the left of the main road. Since this is the only elementary School available in the whole locality and the existing buildings is so insufficient to accomodate all the pupil of the institute which has increased considerably in recent years and most of the students have to be kept outside for want of space the extension of the existing ~~building~~ L type buildings has been necessitated.

The extension proposed has been Complied with the existing structure for accomic purpose and an additional length of 31'-10½" and a width of 14'-0" inside drawing an area of 446 ¼ Sqft for the main hall and an additional open Verandah of 4'-0" width has been proposed.

Construction Details.

Since the Soil is Sandy the foundation proposed is 2'-6" depth with 1'-0" depth of Cement Concrete 1½" broken stone in CM 1:5:10 & 2'-6" wide for the main building & 2'-0" width for the Verandah. Above the Concrete, laterite masonry in CM 1:5 & 1'-4" thick & 1'-6" height for foundation and above that 1'-6" for basement has been proposed. The Superstructure will be of mud wall 1'-3" thick & 9'-3" ht drawing the top 1 Course in Course in laterite masonry to prevent white ants attack on wood work has been proposed. Laterite masonry pillars 1'-6" x 1'-6" in CM 1:5 has been proposed at 10'-7" centres as an additional strength to the mud wall. For the Verandah wooden posts of 4" x 4" Sunk over cut stone base blocks of 2'-6" x 2'-6" have been provided. The eaves in front Verandah will be 3'-0" wide to keep in line with the existing eave projection. All doors & windows shall be fixed in CM 1:5 and wooden lintels over doors & windows also will be fixed in CM 1:5 with 9" projection on either side have been proposed. Roofing will be of Mangalore tiled over single Rafters of Sizes 2" x 4" and no ceiling tiles have been provided. Provision has already been made to dismantle a portion of the roof and the remaining existing structure at the two corners so as to give a proper bond to the existing structure with the new Construction. Also fresh plastering has been provided only to the partition wall of the old building on both sides.

The expenditure is debitable to 63 Rs Community Development projects II Community projects E. Education and the

and the amount of estimates so far sanctioned under this head excluding this estimate is Nil. The rates provided are as per the current Schedule of rates and the work can be executed by the department of the Community Project.

A.M.R. Amarnibaran
S.O. Mangalore
Community Project
Mangalore
6/2/58

Name of work:- Extension to the Board Elementary School at Chitrap. in Mangalore Taluk.

Calculation for:-

Foundation

Roof load on the pillar 9'-6" x 10'-7" x 36 = 3620
wall plate - 1 x 2'-4" x 10'-7" x 36 = 889
Total = 4509 lbs

dead load
But only 1/4 is assumed to be taken by the wall plate resting on the pannel wall.

Hence load on the pillar = 4509 x 3/4 = ~~3382 lbs~~ = 3382 lbs.
wt of pillar - 1 x 1'-6 x 1'-6" x 9'-3" x 140 = 2914 "
wt of Basement = 1 x 1'-6" x 1'-6" x 1'-6" x 140 = 473 "
" Foundation = 1 x 1'-6" x 1'-6" x 1'-0" x 140 = 525
Total = 7294 lbs.

Area over which the load is distributed = 1 x 2'-6" x 1'-6" = 15/4 sq ft.

load
per foot = 7294 x 4 / 15 = 1945 lbs as against 1.5 T 2.5 T 6 T 8 T tons for loose sand. Hence it is quite safe. The depth of foundation is taken 2'-6" below G.L.

Rafters :- Couple rafters at 2'-0" centres have been provided.

Sir,

Sub: Community Projects - South Kanara area - Education - Extension to the Board Elementary School at Chitrap - Estimate - Report - Submitted.

Ref: G.O.Ms.No.1763 Public (C.P.) Department dated 4-7-1953.

.....

In the Government Order cited, sanction was accorded to an expenditure not exceeding Rs. 1,500/- towards extending the school building of the Board Elementary School at Chitrap out of an estimated cost of Rs. 3,500/-

2. The Village Committee is prepared to complete the work in accordance with the approved plan and the sanctioned estimate. They, however, want the basement level of the extension to be kept in level with the existing building. This is only a petty deviation which can be done during execution. According to the present sanction, an expenditure of Rs. 1,500/- can be incurred only if the value of the work turned out is Rs. 3,500/- In the estimated cost of Rs. 3,500/-, an amount of Rs. 300/- is set apart for petty supervision and unforseen items. This amount is not likely to be spent and so the beneficiary cannot be paid Rs. 1,500/- even if the building is constructed according to the sanctioned estimate because payment can be made only in the ratio of the sanctioned expenditure to the total cost. The villagers who are mostly poor have already contributed in excess of their resources for a foot bridge and a drinking water well which have already been completed and for which they have contributed liberally in cash and kind. They are not therefore in a position to take up this work unless at least a sum of Rs. 1,500/- is given from the Community Project funds in which case also they have to raise a contribution of about Rs. 2,000/- I, therefore, request that sanction may kindly be accorded to the payment of Rs. 1,500/- provided the building is constructed according to the approved plan and sanctioned estimate and provided the value of the work done is not less than Rs. 3,000/- I request the favour of early orders in the matter.

Memo No 33032 ~~24555~~ Agri (CP. Audit) 53-1 dt 14 12/53

Sub:- Community Projects - South Kanara Area - Education - Extension to the Boarding Elementary School at Kokkarap

Ref - From the PEO. Mangalore Rly. Cno. 87/52-B dated 12-12-53.

The PEO. Mangalore is informed that the only items in the Estimate Sanctioned in G.O No. 1763 Pub (CP) dt 4-7-1953, that may not be utilised is the provision for Contingencies and petty Supervision charges. The provision for unforeseen works is to include painting of woodwork doors and windows and fitting of basement which are necessary and for which no provision has been made separately. He may therefore prepare a fresh estimate to include only the essential items of work which are certain to be carried out by the beneficiaries, on receipt of which revised orders will be issued

2. The PEO is also informed that the instructions already issued in memo No 24555 Pub (CP. Audit) 53-1 dt. 7-9-1953 also apply in such cases.

Sri M.Narasimha,
Project Executive Officer,
Mangalore.

To

The Director of Community Projects,
Agriculture Department,
Fort St.George, Madras 9.

.....

Sir,

Sub: Community Projects - South Kanara - Education - Extension to the Board Elementary School at Chitrap - Estimate - Further report - Submitted.

Ref: 1. Government Memorandum No. 24555 Public (C.P.Audit)/53-1 dated 7-9-1953.
2. This Office Ref.C.No.37/52-B dated 12-12-1953.
3. Government Memorandum No. 33032 Agriculture (C.P.Audit)/53-1 dated 24-12-1953.

.....

I invite attention to the Government Memorandum cited first. The instructions contained therein are that revised estimates should be prepared in all cases, where the beneficiaries are unable to execute the work as per the provisions made in the sanctioned estimates, making provision therein for such materials and workmanship as would be available without much difficulty and which the beneficiaries could obtain easily or at a lower cost. In this case, the beneficiaries are willing to execute the work as per the sanctioned plan and estimate and as such there is no need to revise the estimate already prepared. The total cost of the work is Rs. 3,500/- and the Community Project has sanctioned a grant of Rs. 1,500/- According to the instructions in force, a sum of Rs. 1,500/- can be paid only if work worth Rs. 3,500/- is done by the beneficiaries as provided in the estimate. Provisions such as those for petty supervision, etc., which are included in the amount of Rs. 3,500/- are not likely to be utilized and so the beneficiaries will not be getting Rs. 1,500/- even if the work is completed as per the sanctioned plan and estimate because the value of work done will be less than Rs. 3,500/- and they can be paid only in proportion to the amount of work done. The grant given by the Community Project for construction of additional accommodation to schools is only a modicum of the total value of the work to be done, and it will work as a real hardship on the beneficiaries, if they are not to get even this small amount in full. In some cases, the estimate will be above Rs. 5,000/- and if the value of work done is only Rs. 4,000/- the beneficiary will get only four-firths of Rs. 1,500/- though the cost incurred is three times the full amount payable by the Government. The same is the case with Community Hall buildings. It will be only just and fair that the beneficiaries are paid the sanctioned amount in full if the value of the work turned out by them is not less than a certain proportion which it bears to the sanctioned amount payable by Government. I should think that the if the value of the work turned out is double the amount sanctioned from the Community Project, the full amount has to be paid even though the total value of the work done is less than the amount of the sanctioned estimate. So in this office reference cited second, sanction was applied for to the payment of Rs. 1,500/- to the beneficiaries if the value of the work turned out by them is not less than Rs. 3,000/- In order to ensure the completion of the work part-payments will be made in proportion to the work done, and the final payment will be made in such a way that the beneficiary gets the full amount sanctioned by the Community Project if the total value of the work done is not less than double that amount. As there is no need to revise the estimate in this case because the beneficiaries are willing to execute the work as per the sanctioned plan and estimate, I request that sanction may kindly be accorded for the payment of a sum of Rs. 1,500/- if the total value of the work done is not less than Rs. 3,000/- As already stated above, part-payments will be made in proportion to the work done. I request the favour of early orders.

2. I also submit that the same procedure may be ordered to be followed in all cases of construction of additional accommodation to schools, and construction of Community Halls where a fixed amount is paid from the Community Project funds. I request early orders on this point also.

PROJECT EXECUTIVE OFFICER.

S.K. Dist

Pub (C.P. Audit) Dept.

(C No 6022/53)

Sub- Community Projects- Dt South Kanara District- Education- Estimate for extension to the Boards Elementary School at Chitrap.

Ref- From the PEO. Mangalore. Rly. C. No 8687/52 dt/27 3/53

Please see the letter from the PEO in p. 1 Cf. enclosing an estimate for additional accommodation to the Elementary school at Chitrap run by the Dt board.

The estimate has been scrutinized and the cost remains the same after Corrections to the detailed quantities and to the rates of items

The building is designed to resemble the existing structure and the proposal is only to extend the old structure by about 34 ft. The extension consists of a verandah 4 ft wide and a hall for class rooms 14 ft wide. The foundation will be in Sandy soil, laid with Concrete 1-0" thick and laterite masonry to basement level. The Superstructure consists of laterite masonry pillars at intervals of about 11 ft. with panels of laterite mud walls finished with Cement plaster. The roofing will be of plain mangalore tiles on Couples rafters.

2. The Project estimate for the 1st year allows aid to existing Schools in the form of improving existing accommodation for 27 schools at a total expenditure of Rs 54,000. or an average of Rs 2000 a School.

para 3. P1 Cf. The P.E.O reports that the District Board which is running the School is not in a position to provide additional accommodation. The present accommodation is only for about 114 pupils, whereas the Strength of the School is 164, 161.

para 4. P1 Cf. The estimated cost of extensions is Rs 3500 and the local population is prepared to meet a fourth of this, leaving about Rs 2625 to be met from Cf. funds. This amount is in excess of the average of Rs 2000 permissible under the project estimate.

The PEO may be asked to try and raise the Contribution by the local public to at least 50% of the

estimates cost

Subject to orders a draft memo is put up for approval

S.V. 22.4.53

M.P.S. 53 Roy 23.4.53

The Project estimate contains provision for improvement of existing accommodation for schools (60) at a cost of Rs 1·60 lakhs for 3 yrs. C.P.A. have sanctioned improvements to 27 schools for the first year at the same average of say Rs 2000/- per school. The President, D.B. has also agreed to the appointment of a basic education trained teacher, if available. The expdr for C.P.T.D in this case is Rs. 2625 i.e 15% of the total Cost. S. Kanara is vociferous about amenities without corresponding contributions from the public. The local population is poor as per the letter of the P.E.O. at p 1 c. Hence there seems to be no point in insisting on 50% contribution as suggested by the office note. In view of the monsoon weather expected shortly, the work has to go ahead if it is to be completed early.

Hence the estimate may be sanctioned as suggested by the P.E.O.

S
24/4/53

Please re-examine in the light of the decisions taken at the Conference of Ministers on education policy to be followed in this State.

24/4

The decision taken at this Conference of Ministers has not yet been communicated the decision may be awaited.

22/4.

A record of the conclusions arrived at during the Conference of Ministers on the education policy in the C.P. area is put up at (V)

2. The P.E.O's proposals are for financing the construction of additional accommodation to the District Board Elementary School at Chittagon to the extent of Rs 2625/- which is 75% of the Cost of full Construction of Rs 3500/-. As this is an Elementary school run by the District Board Condition 1. laid down in the policy is satisfied. As regards Condition 2, the type of education imparted Craft or farming work, the P.E.O reports that at present Coiring, basket making and Spinning is taught and the District Board has proposed to employ a trained teacher to impart basic education as soon as the extension of the building is Completed. It may ∴ be taken that Condition 2 is also satisfied. As regards priority the School is entitled to the help as this is an ~~primary~~ Elementary school imparting primary education

3. The Project estimate provides for the improvement of 27 schools for the first year at the average of Rs 2000/- per school. According to summary record of discussions the Govt share of cost of land and building for a primary school should not exceed Rs 1500

(Issued as Memo 6022 Public (CP. Mvmt) 53-1 dt 8.5.53)

From the PEO. Mangalore. Rep. C No 87/52-B dated 13-6-53

Please see the reply from the PEO. Mangalore at pset. The PEO reports that the beneficiaries are willing to carryout the extensions if a grant of Rs 1500 is made from CP. funds. The PEO further asks that the amount may be paid in instalments at 50% of the value of work done at the time of making the payment. The total sum of Rs 1500 may be paid in a lump sum if the value of work done exceeded Rs 3000/-. The estimated cost of the work is only Rs 3500 and hence there is not much risk of the beneficiaries Completing works to the value of Rs 3000 and then abandoning further work, after obtaining the grant of Rs 1500/-. Hence the expenditure may be sanctioned as a grant payable ~~at~~ in ~~two or more~~ instalments at the rate of half the assessed value of the work done till then. If the above procedure is to be adopted the estimate need only be Countersigned

~~Above~~ Subject to orders, a draft order is put up for approval. The estimate may also be Countersigned

Sr 23.6.53 Sr/23/6 Our estimate should be Sanctioned as in the case of others and the grant payable should be w.r.t. the proportion of the work executed

Issued as Lgo RS No 1763 Public (CP. Mvmt) 53. dt 4.7.53

(C No 33032/53) Sub:- Community Projects - South Kanara Area - Education Extension to the Board Elementary School at Chitrap - Revision of orders

Ref:- From the PEO. Mangalore ref C No. 87/52-B dated 12-12-53

Please see the letter from the PEO. Mangalore at p/1 cf. regarding the work of Extension to the Elementary School building at Chitrap. The work was sanctioned in G.O.Ms. 1763 Rub (CP.) dated 4-7-1953. Out of an estimate submitted by the PEO for Rs 3500, a sum of Rs 1500 was sanctioned from CP. funds the balance being left to be met by Contribution. The PEO was also permitted to make payments for work done in the usual manner i.e. in the proportion of 1500 : 3500 of the value of work actually done.

The PEO now reports that in actual execution the total value of work that may be done will only be about Rs 3000/- and therefore the amount payable from CP. funds will fall proportionately. In support of this it is stated that the provision for Contingencies and petty Supervision and that for unforeseen works may not at all be utilised actually. The PEO therefore wants revision of orders permitting him to make the full payment of Rs 1500 if the value of work done is Rs 3000/- or above. At the same time the PEO states that the beneficiaries will carry out the work according to the approved ~~plans~~ plan and estimate.

It is submitted that what may not be utilised is the provision of Rs 170/- for Contingencies and petty Supervision charges. The unforeseen works are to include panching of woodwork, filling in basement etc for which no separate provision exists in the estimate. The PEO may therefore be asked to prepare another estimate for all the items of work that are necessary and are likely to be carried out actually. The PEO Mangalore

has been similarly instructed when he wanted revision of orders for the other works of Construction of additional accommodation to schools in file No 24555/53. Hence the PEO may be asked to send an estimate incorporating only the essential items of work, on receipt of which the question of revision of orders may be taken up

A draft memo is put up for approval

22-12-53

24.12.53

Issued as Memo No 33032 Appl (C1 Misc.) 53-1 B 24.12.53

Ref: From the PEO Mangalore CM No. 87/52-B dt 18.1.54

Please see the letter from the PEO. Mangalore at p5 cf. In his letter No. 87/52-B dated 12-1-53, the PEO. stated that out of the approved estimate for Rs 3500, certain items as contingencies and petty supervision charges, unforeseen works etc may not be utilised and the ultimate value of work when done would be Rs 3000/- only. So that the amount payable from CP funds may not also be reduced proportionately he wanted orders whether a sum of Rs 1500/- may be paid if work done actually exceeded in value Rs 3000/- On this, the PEO was asked to send a fresh estimate incorporating only such items as are likely to be carried out, so that revised orders may be issued

The PEO, now in his letter at p 5 cf. states that there may not be any need to revise the estimate but wants orders to enable him to make payment of Rs 1500/- when work is done for more than Rs 3000/- He also states that the beneficiaries are prepared to carry out the work according to approved plan and estimate and also wants a general instruction or orders to enable making payment of the full amount sanctioned whenever the value of work is more than double the amount sanctioned

It is submitted that instructions issued in memo No

33032 Agri (C.P. Audit) 53-1 dt. 24.12.53 and also earlier in memo No 24555 Pub (C.P. Audit) 53-1 dt 7.9.53, only after due consideration of all points presented by the PEO and that no new point to warrant revision of orders has been brought up by the PEO.

For orders whether the instructions already issued may stand.

25-1-54

26.1.54 27/1/54.

C.P. Scheme is peculiar. The usual P.W.D. orgn is not applicable & rigidity has to be avoided at all Cost. As want of progress has been the cry of the public of C.P.A., the P.E.Os. should move decisively. In order to avoid future laxities of the kind we may permit the P.E.O. to get the work executed and pay at 50% of the check measured work or Rs 1500/- whichever is lower. We may adopt this standard in similar cases of construction for educational institutions.

28/54.

Ver 31.1.54

The routine note put up by office under my instructions after discussion with the Supervisor may be perused. There is some force in the argument that if a general order of this kind is issued the beneficiaries will come with grandiose Schemes and then dwindle them down to Rs 3000/- Every addition contemplated by the beneficiaries should be estimated for and carried out with a contribution of Rs 1500/- from C.P. funds. As suggested by the routine note an exception may be made in the case of the chatrapur School and the position explained to the P.E.O in detail. For orders

2/2/54.

yes. Orders as pointed out above may be issued in this particular case only.

Routine.

C No. 33032/53

Sub:- Community Projects - South Kanara Area - Education Provision of additional accommodation - Proportion of aid.

In the case referred to the estimated cost of the work was Rs 3500/- out of which the CP's expenditure was to be Rs 1500/. The PEO reported that in actual execution only work to the value of Rs 3000/- was likely to be done in completion of the work, the balance being provision for unforeseen works, petty supervision charges etc. Hence he requested that he may be permitted to make payments upto Rs 1500, provided the total value of work done was Rs 3000/- or more. He was then asked to send a fresh estimate to incorporate only the items that are likely to be done, leaving out other provisions.

The PEO now says that there is no necessity for a fresh estimate and wants orders as already requested by him. He also adds that such procedure may be adopted in all cases of additional accommodation to schools and Construction of Community halls. As such a general procedure will reduce the expenditure of sanctions from CP funds to the nature of a 'grant', the purpose of the approving detailed estimates may be defeated.

It is to be presumed therefore that the orders passed have reference to the particular case of the work at Belthap School only.

Yes Ur 4-2-54

It is submitted for orders whether the PEO's is to be proposal is to be approved in the specific instance only and whether he may be asked to approach for orders in such individual cases. (The estimates cost in other cases varies from Rs 5000/ to Rs 21000).

N. 2-2-54

I have put up an addl note in main n.t. for order JAS

2/2/54.

2/2/54

~~I am even inclined to agree that 50% of the amount of estimate may be paid, where more~~
